The Intelligencer

It is with unaffected sorrow that w announce to our readers that How. BEN-JAMIN STANTON died suddenly, at his res idence in this city, a little before midnight last night. The sad intelligence has just come to us (at 1 A. M.), and we have no particulars, except that one of the neigh bors suddenly summoned to the house reached Mr. STANTON's bedside, where he was surrounded by his family, just as he expired. He had retired in his accustom ed health. His illness, which we learn was of but a few minutes duration, was supposed to have been occasioned by heart disease.

The death of such a man, so endeared as he was to his family and friends for all the kindly, social virtues that adorn and ennoble human nature, is not only a private bereavement; but his eminent abilities, his sound judgment, his great knowledge of public affairs and his lively interest in all that concerned the welfare of the community, make his taking off like wise a public misfortune.

The Next Governor--Can Nothing Save Us From Camden?

The Gubernatorial nomination at Par kersburg is by no means satisfactory to the Democracy of the State. The Convention had been thoroughly packed by Mr. CAMDEN and his friends. He was as sisted in filling the Convention with his partisans by those who, within a few months past, have found Gov. JACOB standing between them and the treasury, and by the Railroad Company, whose champion he is known to be. Senator DAVIS took the pains to come all the way from Washington to make the way smooth for his coming colleague. For Mr. CAM DEN is siming at the Senate, and only wants to be Governor because the Executive chair is the stepping stone to the higher place. Some of the Dem ocratic papers denounced in advance the movement to foist Mr. CAM-DEN on the party as their candidate they may support him now, but not cordially. Perhaps if they had a chance to support so pure a man and good a Demo crat as Gov. Jacob they would prefer it To a large portion of the party in this city Mr. Campen's nomination is intensaly distasteful; and we hear they will send to Gov. Mr. Logan was not surprised at the anxiety of Democrats to adjourn after the malignant civil attack put forth in their interests. The Democratic Senators had their case better presented by the Senators claiming to be on his side of the chamber, and had it done better than either of them is capable of. If a called session, result, it cannot now be laid at the door of the friends of the administration but it can be laid at the door of the two Senators who have been so studiously attacking the administration. If the session is extended he (Logan) tempt a defense against one of the most malignant assaults ever made against an honest man. The assault made vesterday against the President [Applause in the galleries] was fitted for no deliberative body on earth; it was fit only for the hustings and it should have been uttered only from the lips of some strimp orator who knew not the courtesy or decencies of the Senate Chamber. He journ, this object being to compel an adjournment on Monday, which would purposed to defend the President on the

was a disposition on the part of the House to grant a further extension of the Senate, if desired, and further by reason of the Convention next week, many members of both Houses would be absent. Mr. Wilson thought it best to take now the ten days the House had given to en-deavor to finish up the business, and if it could not, to ask the House for further extension. The Senate made a
